4. FIRST AID MEASURES

4.1 Description of first aid measures

General advice: Move out of dangerous area.
Never give anything by mouth to an unconscious person.

If inhaled: Move to fresh air.
If symptoms persist, call a physician.

Skin contact: Take off all contaminated clothing immediately.
If skin irritation persists, call a physician.

In case of eye contact: Irrigate copiously with clean, fresh water for at least 10 minutes, keep eye wide open while rinsing.
Remove contact lenses.
Protect unharmed eye.
If eye irritation persists, consult a specialist.

Ingestion: Prevent vomiting if possible.
If a person vomits when lying on his back, place him in the recovers position.
Never give anything by mouth to an unconscious person.
Clean mouth with water.
If symptoms persist, call a physician.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms: no data available

Risks: no data available

4.3 Indication of any immediate medical attention and special treatment needed

Treatment: no data available

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide

Unsuitable extinguishing: High volume water jet

5.1 Special hazards arising from the substance or mixture

Specific hazards during fire fighting: Do not use a solid water stream as it may scatter and spread fire

5.3 Advice for firefighters

Special PPE for fire-fighters:Wear self contained breathing apparatus.

Further information: Use water spray to cool unopened containers.
In the event of fire and/or explosion do not breathe fumes.

6. ACCIDENTIAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions: Use personal protective equipment.
Ensure adequate ventilation.

6.2 Environmental precautions

Environmental precautions: Prevent product from entering drains.

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up: Dam up.
Wipe up with absorbent material (e.g. cloth, fleece).

Additional advise: Suppress (knock down) gases/vapours/mists with a water spray jet.

Local authorities should be advised if significant spillages cannot be contained.

6.4 Reference to other sections

not applicable

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Advice on safe handling: Avoid contact with skin and eyes.
For personal protection see section 8.

Advice on protection against fire and explosion:When using do not smoke.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers:Store in original container.
To maintain product quality, do not store in heat or direct sunlight.
Keep container tightly closed in a dry and well-ventilated place.

Advice on common storage : No special restrictions on storage with other products.

Other data : No decomposition if stored and applied as directed.

7.3 Specific end uses

no data available

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameter

8.2 Exposure controls

Personal protective equipment

Respiratory protection: No personal respiratory protective equipment normally required

Hand protection : Barrier Creams may help to protect the exposed areas of skin, they should however not be
applied once exposure has occurred.
Wear chemical-resistant gloves, e.g. safety gloves of chloroprene level 2

Eye protection : safety glasses

Skin and body protection : lightweight protective clothing.
Remove and wash contaminated clothing before re-use.

Hygiene measures : When using do not eat, drink or smoke
Wash hands before breaks and at the end of workday.

Environmental exposure controls

General advice : Prevent product from entering drains.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Clear liquid
Colour:	无色到浅黄色透明液体
Odour:	Consistant to the standard sample
Density:	0.966~0.986(25/25℃)
Rrefrative index:	1.4730~1.4930(20℃)
Solubility in water:	Unsoluble
Flash Point:	111℃ (O.C.)
Further information:	The indicated values do not necessarily correspond to the product specification. Please refer to the technical information sheet for specification data.

10. STABILITY AND REACTIVITY

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Stability

Stable under conditions of normal use.

12. ECOLOGICAL INFORMATION

12.1 Toxicity

We have no quantitative data concerning the ecological effects of this product.

13. DISPOSAL CONSIDERATIONS

Product: Where possible recycling is preferred to disposal or incineration.
If recycling is not practicable, dispose of in compliance with local regulations.

Contaminated packaging: Empty remaining contents.
Dispose of as unused product.
